

Social, Moral, Spiritual and Cultural Policy

Advent 2022

Mission Statement

Our mission is to lead our children to be like Jesus: wise, caring, honest and fair, today and every day.

At St Anne's CVA, we recognise that the personal development of pupils, spiritually, morally, socially and culturally, play a significant part in their ability to learn and achieve. In line with the Catholic ethos of our school Christ is at the heart of all learning and socialising that takes place in the school day.

We therefore aim to give an education that provides pupils with opportunities to explore and develop their own values and beliefs, spiritual awareness, high standards of personal behaviour, a positive caring attitude towards other people, an understanding of their social and cultural traditions and an appreciation of the diversity and the richness of other cultures and a respect for their own faith and other religions.

All curriculum areas have a contribution to make to the child's social, moral, spiritual and cultural development and opportunities for this to be planned in each area of the curriculum.

The integrity and spirituality of all pupils from different backgrounds will be respected and explored. The diversity of spiritual traditions will be recognised, and pupils will be given access to alternative views.

Adults will model and promote expected behaviour, treating all pupils as unique and valuable individuals and showing respect for pupils and their families.

The school community will be a place where pupils can find acceptance for themselves as unique individuals.

Pupils should learn to differentiate right from wrong in as far as their actions affect other people. They will be encouraged to value themselves and others. Pupils should understand the need for rules and the need to abide by them for the good of everyone.

School and classroom rules should reflect, reiterate, promote and reward acceptable behaviour and provide opportunities to celebrate pupils' work and achievements in line with the school's behaviour policy.

Each curriculum area should seek to use illustrations and examples drawn from as wide a range of cultural contexts as possible. This will be reflected in teacher's planning, evaluating and purchasing decisions.
